

Lesson#9 - The Prophets

Contributed by Lane Douglas
Thursday, 19 April 2007

Despite what most people think, the prophetic portions of the Bible have very little to do with foretelling the future or the end of the world. In fact, less than 5% of all the prophetic books have anything at all to do with the coming of the Messiah and less than 1% speak to anything occurring in our lifetime. So why study them? Because we learn about God's passion for keeping His people obedient to the covenant.
